

ERGANI II • DIGITAL HR SOLUTION • CORE HR

# JobCard | Meet Athena

Antonis Kalipetis

A product with LOGIC | <https://jobcard.gr>

PLATFORM PHILOSOPHY

# Redefining compliance

---

Aligning operations and regulatory transparency seamlessly in real time.

# Core platform features

## COMPLIANCE

### Real-time ERGANI II sync

Your card scan get stored and transmitted to ERGANI II in real-time.

Smart retry logic ensures they arrive to ERGANI II systems, even in cases where they fail, without manual intervention.

## PRECISION

### Error prevention

Configurable intelligence ensures check-ins and check-outs are within schedule.

Real-time notifications to employees, managers and HR admins ensure compliant card scanning

# Flexible check-in options

## QR code

Instant code scanning using fixed terminal tablets or mobile phones.

## RFID terminal

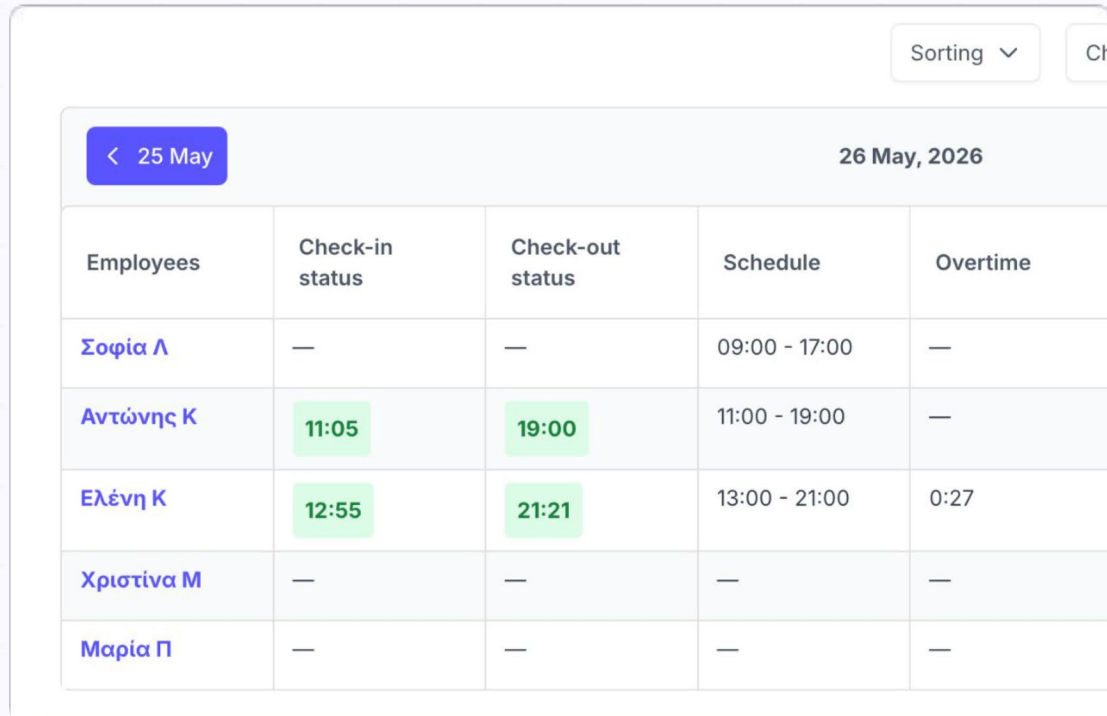

Robust contactless cards integration for ease of use and speed.

## Mobile app

Check-ins via employee smartphones ideal for field and remote workforces.

# HR manager empowerment

The screenshot displays an HR dashboard interface. At the top right, there is a 'Sorting' dropdown menu and a 'Ch' button. Below this, a navigation bar shows a date selector for '25 May' (with a left arrow) and '26 May, 2026'. The main content is a table with five columns: 'Employees', 'Check-in status', 'Check-out status', 'Schedule', and 'Overtime'. The table lists five employees: Σοφία Λ, Αντώνης Κ, Ελένη Κ, Χριστίνα Μ, and Μαρία Π. The check-in and check-out times for Αντώνης Κ and Ελένη Κ are highlighted in green boxes.

Employees	Check-in status	Check-out status	Schedule	Overtime
Σοφία Λ	—	—	09:00 - 17:00	—
Αντώνης Κ	11:05	19:00	11:00 - 19:00	—
Ελένη Κ	12:55	21:21	13:00 - 21:00	0:27
Χριστίνα Μ	—	—	—	—
Μαρία Π	—	—	—	—

## CENTRALIZED SYSTEM

### Enterprise HR dashboard

Control leaves, scheduling profiles, real-time worker states, and labor records within one clear web dashboard. Save up to 60% of administrative overhead through robust system automation.

# Employee experience

-  **Smartphone check-In:** Simple login and validation process with IP filtering from the employee mobile phones.
-  **Shift tracking:** Transparent scheduling displays detailing current shifts and remaining vacation allocations.
-  **Intelligent alerts:** Immediate push notifications prompting employees before missing active checkout windows.

**Tuesday 26 May 2026**

 **Checked in**

**Check-in time**

**10:46**

**Check-out time**

**18:00**

# Secure compliance history

# 10

YEARS ARCHIVE GUARANTEE

## ENTERPRISE DATA ARCHIVE

### **Secure storage safeguard**

Legal regulations dictate a mandatory ten-year secure labor logs history. JobCard implements fully encrypted, redundantly back-up system storage to keep your operational database intact, secure, and accessible instantly at any point during audits.

POWERFUL AI AT YOUR HANDS

# MEET ATHENA

---

Your AI assistant for ERGANI II, scheduling and leave management

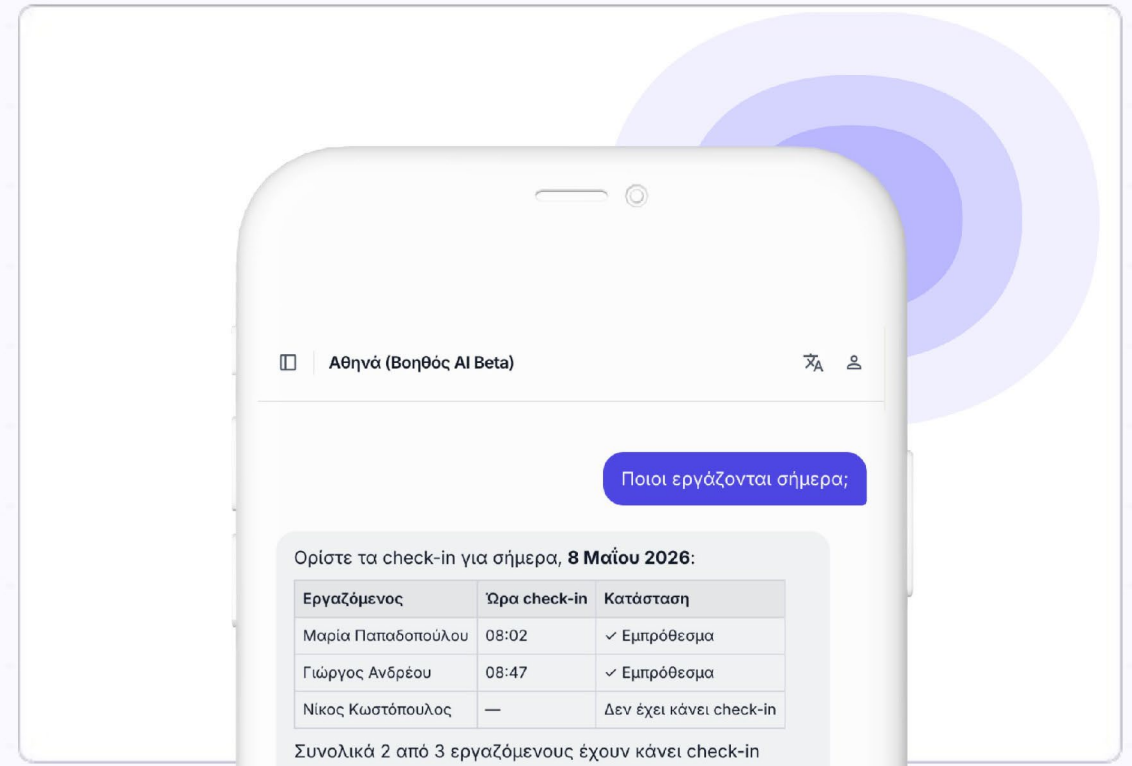

# Athena AI assistant

## CONVERSATIONAL HR OPERATIONS

### Real-time data integration

Athena seamlessly connects with all your data within JobCard, processing complex queries instantly through direct conversational prompts.

-  **Full Database Sight:** Query up-to-the-minute details regarding employee status, live schedules, live time attendance, and pending leave balances.
-  **Dispatched Actions:** Effortlessly run scheduling updates, reassign shifts via simple chat, all with explicit approvals.
-  **Dynamic PDF Reports:** Prompt Athena to instantly filter, evaluate, and assemble complete reports.

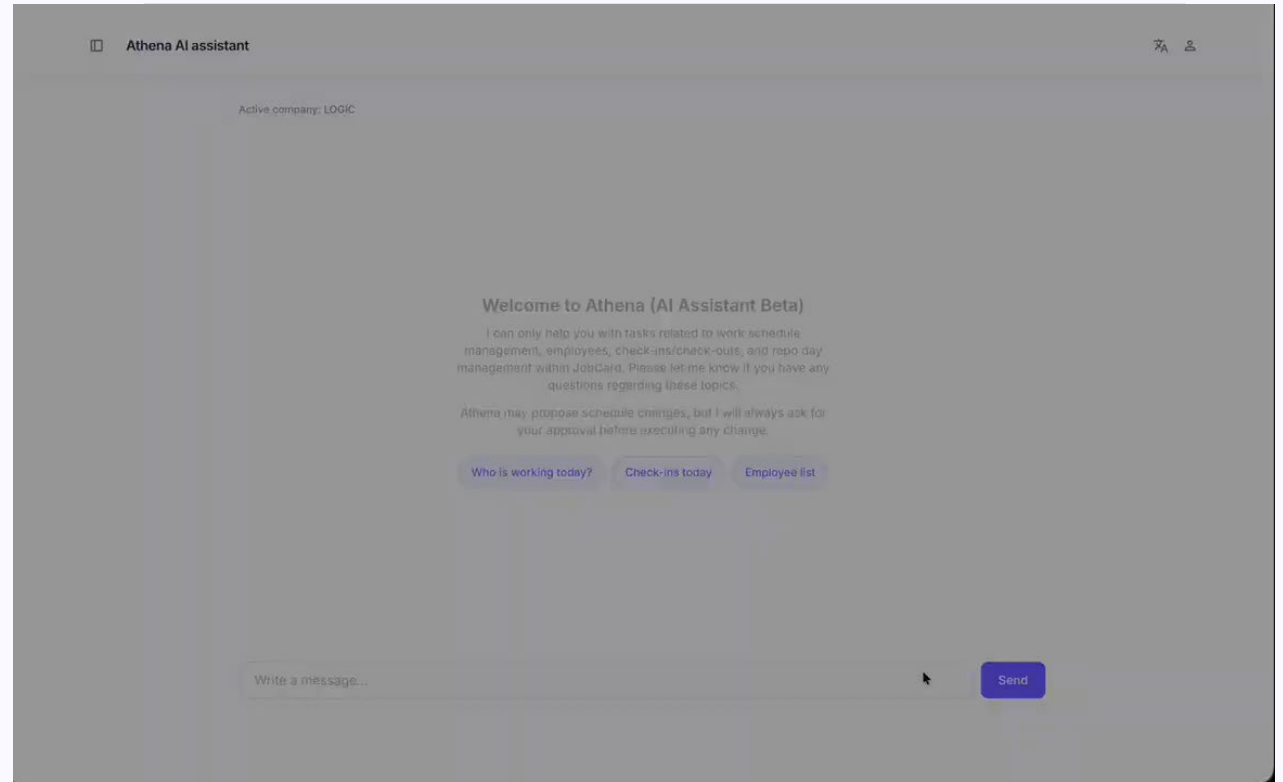

# JobCard Athens demo

Experience the assistant

## Watch Athena in action

See how Athena and our digital card solution transform HR operations through automated workflows, real-time sync, and conversational intelligence.

# Ready to Modernize?

Integrate the digital card solution that Greece's leading companies use  
and automate your HR workflows.
